abstracta® modular display system

hinge set instructions

647-01
hinge set

drilling

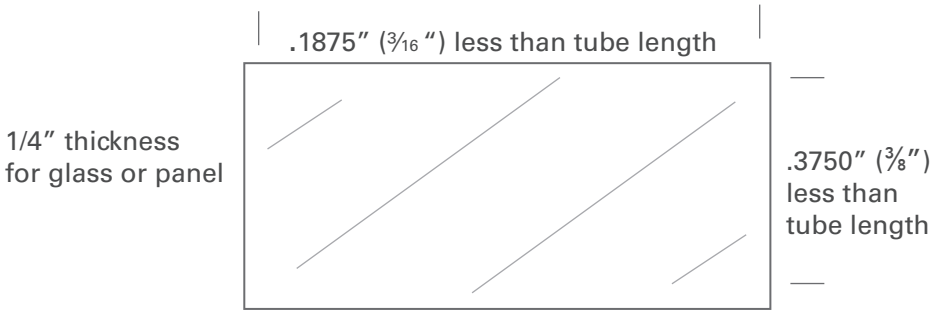

Holes must be drilled into tubes for hinge sets to attach.

hole size -
13mm - 5/16 " hole

door size

Using hinge sets requires the glass or panel to be cut at a different size than panels attached with clips.

placement

Due to 620/625 shelf bracket placement, door can only open from the left, not from the right.
